Subject: DM/17/4425 – Planning consultation for exploratory borehole, Lower Stumble Wood, London Road, Balcombe, West Sussex.

Hi Nick

Our response:

-

Environmental Protection issues

Our concern is to protect local residents and the local environment from any negative impacts from the proposed operation. In particular we would like a reassurance from you that you will apply and enforce conditions to the application that will ensure that residents are not affected by an unreasonable level of noise, particularly at unsocial hours; that air quality is maintained, including the control of odour from flaring, and that groundwater is protected from the effect of pollution.

Regards

Yvonne Leddy
