The Local Highway Authority has been consulted on the proposed amendment of condition 2 of planning consent WSCC/052/12/WC. The variation of the condition would enable the continuation of activities for a further 12 months.

The proposed amendment to the condition would not have a material impact on the traffic generated by the development site. No alterations are proposed to site operations as part of the application that would impact upon vehicular generation beyond traffic impacts previously considered. No objection is raised to the proposed amendment.
