Comments	The idea that in order to complete this project at least 35 extra HGV's per day would be routed down Ship Street to the mini roundabout is absurd. Ship Street is a narrow road and an HGV is wider than one side of the road already (having passed one this week in my car and having had to go into the bushes to avoid it hitting me). The planned works seem unnecessary as the land has been used just fine in the past. This amount of addition commercial vehicles will doubtless cause many accidents, disrupt the local residents peace and leave cause more traffic
