Comments	I am strongly objecting to the route that the HGV traffic proposes to takethe road outside my house on the way up to Standen has never recovered from the Large lorries and plant that last went up there, for the development at the Tobias schoolthe west Hoathly road is so bad especially on the corner of Coombe Hill Rd. I have reported at least 5 times (since moving here 5 years ago) the smell of gas and drainage problemseach time they dig up and fix the pipes for temporary repairthe last engineer who came out to the smell of gas explained that the whole road is crumbling hence the constant breakage of the supplies. It is also so narrow I feel that it really would be a accident waiting to happenthis would cause untold disruption to our community for a protracted period and I strongly object.
