Comn	nent for planning application WSCC/004/20
Application number	WSCC/004/20
Name	lan Lawson
Address	35 Edinburgh Way
Type of Comment	Objection
Comments	The proposed plan involves large HGVs regularly using a narrow road with limited lighting and inappropriate pedestrian walkways. The road itself is very near to Deers Leap Farm cycle track and as such many cyclists use this road (including myself). The limited vision already afforded to vehicles in general along this road will undoubtedly be exacerbated with larger vehicles blocking the vision of other road users. This would cause a significant increase in risk to pedestrians and cyclists, particularly with narrow pavements near the entrance and the local buses attempting to pass HGV's along this road. Should any larger vehicle be travelling along the road at the same time it is impossible to imagine how these vehicles would pass each other safely at any point. Added to this there is a nursery school with poor visibility at the entrance very near to the farm all of which ensure that this proposal would have a severe detrimental effect on the safety of other road users. I therefore wish to raise an objection based on the above information.
