Comn	nent for planning application wSCC/004/20
Application number	WSCC/004/20
Name	Phil Robbins
Address	STREATFIELD PLACE, 3, STREATFIELD PLACE, EAST GRINSTEAD, RH19 4RQ
Type of Comment	Objection
Comments	Dunnings road and West Hoathly roads are already dangerous and cannot support HGV activity. Dunnings has residents parked cars across its length making it a single lane traffic route. Users of the road have to queue and duck in and out of the parked cars to make progress. This causes pollution is dangerous to road users and to pedestrians. Adding heavy loaded HGVs travelling in both directions unable to pass safely means this is significantly increased people Accessing the park by Parking on the road opposite the dunnings mill pub park opposite regularly means families are leaving cars on road side. Exit of streatfield place and dunnings pub is practically blind and with cars opposite leaves no room for error, especially for a large HGV. Any increase in HGV use will significantly increase noise in a residential area and Pollution and significantly increase road safety risk for drivers and pedestrians. Especially during school periods where children are travelling to and from Meads primary school. Emission pollution and noise pollution will be excessive due to the steepness and narrowness of both dunnings road hill and west Hoathly road hills
