Comments	This proposal is ludicrous. Has anyone from the council been to Dunnings Road to see how people drive and park there? Have you seen the parking at the lower end of Ship Street? This is on a narrow residential road and there are also children walking to an from Primary School on the route. West Hoathly road is narrow with sheer rocks either side and is already a bus route. What will happen when the bus meets lorry scenario occurs? There is no chance that the lorries will be travelling slowly and obeying road laws either. I would not be surprised to learn of someone being seriously injured or killed if you allow this to happen.
