Comments	Capping the land sounds like a good idea but not at the expense of the turmoil on very unsuitable narrow roads. We have enough heavy goods vehicles going through East Grinstead town already and the road construction surely isn't suitable for such lorries. The proposed housing near the viaduct will bring more chaos to our roads for several years. More building over Super Drug in Queen Street. We'll have no room for shoppers in East Grinstead and the environment there will be unbearable.
