Comments	I stresselv chiest to this proposal. Chie Ctrock already has a weeklers with traffic with souled one days

I strongly object to this proposal. Ship Street already has a problem with traffic with parked cars down one side often causing very close encounters with traffic speeding up and down. This is also a very heavily trafficked pedestrian route into town, and with large HGVs thundering down the hill, cars will be forced to go very close to the pavement. There are several areas where the road narrows down significantly and the pedestrians safety is already often compromised. Furthermore the impact of extensive HGV traffic on Dunnings Road and West Hoathly Rd will be enormous. The road surface near Coombe Hill Road is constantly potholed and in very poor condition.
