Type of Comment	Objection
Comments	This is going to cause massive traffic chaos, not to mention our awful unrepaired roads already, the battering they are going to take with this number of heavy goods vehicles using these unrepaired roads. Are the Council planning on constant maintainance of the roads that these vehicles are going to use so the general publics vehicles are not going to damaged by potholes and alike. Also, what time will these vehicles be coming through the main roads as the school run times are jampacked enough as it is, we do not need any more HGV's on the roads. Will these be open-topped vehicles or will their loads be secured so other road users vehicles are safe in the knowledge that whatever is being transported is being done so in a safe manner.
