Comments	I object to the planning application for lorries going through the east grinstead area to cap landfill at evergreen farm as i feel this will have negative affect on the local area environment and quality of life of residents due to the following issues 1. Road safety to other road users and pedestrians due to the number of lorries in local area daily. 2. The affect on air quality and noise in the local area when lorries are coming and going particially near schools and infant nurseries. 3. Damage to roads with such large amount of lorries using local roads that are already in poor state. 4. Concerns that the capping of land at evergreen farm is being done to make money to dump rouble and not to return land to woodland and pasture.
