Comments	The roads that these large lorries are hoping to drive around are badly maintained, narrow country lanes. Dunnings Road is very busy with local residents, buses and parked cars. Children and parents cross this road going to and from the Meads Primary school. Also children cross on their own going to or from Sackville School. If this work must be done, can it not be with fewer smaller lorries over a shorter time of the day with longer time between each one? The last thing needed is a constant stream of large lorries dominating the road and increase the damage to the already dangerous roads. I do not think this work should go already in the way proposed.
