Comments	The plan will last a number of years and involves 35 HGVs a day leaving the A22 going through East Grinstead town centre, down Ship Street and Dunnings Road and then up West Hoathly Road into Evergreen Farm. The HGVs will leave the site via the Standen drive got down to St Hill Green, turn right at that very dangerous junction, down St Hill road, up Imberhorne Lane past the school and back onto the A22. This seems to me to be serious accidents waiting to happen. The landowner is going to make hundreds of thousands of pounds out of this and the evidence they present that the cap is needed is very weak. Also there is no guarantee that the plan will fit to the proposed time scale thereby increasing the risk.
