Hello James,

I confirm it is not our intention to fundamentally redesign the scheme or alter the red line. Our main focus is on clarifying matters. The main issue is highways and how we deal with that. Lawrence Stringer (GTA Civils) is in contact with Jamie on that front.

I agree to the EOT as described.

We will aim to get the information over to you as soon as possible.

Dan McEwan

Dan,

I would be grateful for your confirmation that any proposed amendments to the proposals would not be likely to result in changes so substantive as to require a new application (e.g. changes to application site/an application of a different character or description).

Regardless, on the basis you intend to have revised information/clarifications submitted at the end of October, I suggest an extension to the determination date of **8th January** (as sufficient time will likely be required for further consultation and drafting/publication of committee reports).

I would be grateful if you can **confirm you agree to this extension**. Of course if you could provide the information sooner, that would be appreciated and may allow for an earlier committee meeting to be targeted.

Regards,

James Neave
