Comments	There is no way that Dunnings Road could cope with the sort of traffic that will be associated with this planning application. It is a busy enough road already. It is pretty narrow in places and a few buses per day can cause problems let alone many large lorries. I hate to think what the road surface will be like after even a few days let alone years! The road surfaces are so bad around the area already. Also you have a number of pedestrians walking up and down the pavement all day. With social distancing in place, we often have to walk in the road which frankly could be extremely dangerous with many huge lorries around. The pavements are not wide enough. Altogether a very bad idea. I can't imagine it's good for the environment either and will thoroughly spoil a pretty area of East Grinstead.
