Subject: Restoration of former landfill site at Standen - ref WSCC/004/20
Date: 20 April 2021 20:56:36

Thank you sending out details of the above application

The proposal includes significant large lorry journeys to the site on narrow roads used by walkers, dog walkers and parents taking their children to school and for other local activities, together with local traffic as well as buses and vehicles going to Saint Hill Manor.

These roads simply cannot accommodate the heavy goods traffic and it would be very dangerous to road users and pedestrians and devastating to residents. This is simply an unfeasible proposal for a residential area.

Joy Hill
