## Comment for planning application WSCC/004/20

Application number Name	WSCC/004/20 Hannah Carter
Address	IMBERHORNE LANE, 145, IMBERHORNE LANE, EAST GRINSTEAD, RH19 1RP
Type of Comment	Objection
Comments	Having 62 lorries pass our house every day is increasing the risk to our children's safety, our health in an increase in diesel pollution and risks to the safety of children of Imberhorne school. Further to this the roads proposed to be used on the route are narrow over the railway bridge on imberhorne Lane where the traffic has to give way to oncoming traffic. And further down on west Hoathly lane. Furthermore the crossroads at saint hill is dangerous as it is having an increase of 62 vehicles a day is utterly unsafe. It's an accident waiting to happen. I propose this whole route is dangerous, increases risks to drivers on the road and pedestrians who currently use these areas. An ill thought out high risk proposal proposing risks to: - Pedestrian safety Increased risks to pedestrians along the whole route - increase in pollution and risk to health - increase in mouse pollution disturbing residential areas. As this affects our road why ha e we not been communicated directly with about this. I suggest this is a breech of transparent communications.
