Comments	Having had one accident at the junction of Saint Hill Green and many times had to negotiate the road between vehicles and pedestrians walking along Saint Hill where there are no footpaths, I feel this is a foolhardy proposal . The roads in width public footpaths and with two already dangerous junctions are not suitable for any increase in large vehicles using them. It would also not be suitable for them to drive down Imberhorne Lane by the secondary school, the park opposite and the football fields , which regularly hold matches. This increases parked cars, narrowing the road and the amount of children getting in and out of those cars. This plan would be dangerous
