Comments	<input type="text" value="As a parent of a child at Trefoil school I strongly object to this. The increase in pollution and noise means this would have a very negative impact on the surrounding areas where children are learning and playing and also for people visiting the neighbouring national trust gardens at Standen. With a climate emergency being at the forefront of our minds I think this is a counterintuitive step to take, when we should be preserving the peace, wildlife and habitats in the countryside."/>
