Comments	I am in objection to these planned worksand cannot believe that this amount of HGV traffic will have little impactliving near this site and using the west hoathly road frequently I am astonished to imagine that these enormous trucks will fit on certain parts of the routeespecially the junction they plan to take onto west Hoathly Rd from St Hillit's so narrow here that for oncoming traffic it could prove a death trap, let alone to the poor souls who might be walking here (it's a popular beauty spot some paths come near and cross over this area) I feel this cap is unwarranted and of no real benefit to our area, for the disruption it may cause in the process. Having often seen people camping in this land I can't believe that it is as toxic as they would lead us to believe. Much of this land is natural habitat for declining species I strongly object to the irreparable damage it will cause.
