Comments	The area where this proposed facility is to be built is absolutely not suitable for what they are proposing. All types of waste will be sorted including industrial. This will give off fumes into the atmosphere. They are proposing a high tower not at all in keeping with the area. There will be even more lorries adding to what we already have on our lanes. Over the last 10 years very many more houses for families have been built in Yapton and 1,500 are due to be built on Ford airfield itself. So I do not agree with this proposal.
