Comments	What can I say that hasn't already been said. This is a totally unsuitable industrial plant for such a rural area and will affect so many peoples lives in a negative way. There is the propsal of 1500 houses on the same site yet Viridor and Grundon have still yet to meet with the developers to discuss their plans for the incinerator. The surrounding road structure is not sustainable to accommodate heavier larger lorries which will be used when the plant is built. The environment and health of the surrounding community is at risk too. This isn't an application to meet the needs of the people it is purely one for the proposers to make financial gain. The Human Rights Act is being broken on so many levels and this proposal should not be allowed to happen.
