Comm	nent for planning application wscc/030/20
Application number	WSCC/036/20
Name	Lesley Newman
Address	EAST BANK, 1, EAST BANK, ARUNDEL, BN18 0DJ
Type of Comment	Objection
Comments	I strongly object to this application. The road I live on is busy with traffic including hgv vehicles. The addition of the large housing estates that will be built around us will impact as our road is a direct route to the A27 causing more traffic and build up of vehicle queuing. This will result in poor air quality. At present because of the time the railway gates are down, the traffic queues back along the road and with extra lorries sitting waiting, running their engines, the air quality will be worse. The structure of the building will not be in keeping with the surrounding area. There are too many industrial sites in this area, we need a break from noise, dirt, air pollution. I strongly object to this application and will take part in any further action to stop this going through.
