Comments	The scale of this building is out of character with the surrounding landscape. The height of chimney will tower above all around it and even though the current structures are industrial in size and nature they do not over power all around. With the current waste treatment sites locally including Northwood Farm which has had three fires this year the area has its fair share of waste sites and the vast amount of heavy road traffic associated with it. The fire safety is a concern as stated Northwood Farm T J Waste has had three fires this year whether intentional or accidentally they still cause concern, dangerand pollution to those around. As stated road traffic is a serious concern on what are in many cases country roads, and if all these houses get built it's going to be grid lock. Please can you look at some cycle path in any plans to make it safer to join A259 cycle route and if buildings are going up benefits must be put in. Soon there will be no countryside left and clumping, Yapton etc will all join and we will have no
