| Comments | Ford has become a dumping ground for all the unwanted facilities across the county. This is a monstrosity and should be build somewhere where people cannot see it, although that would be difficulty because of it's scale! The roads around this area are already over-subscribed, we join traffic jams now, even through he supposed lockdown. If this goes ahead we would certainly be looking for a public inquiry and I am sure there will be demonstrations to stop it! We stopped the eco-town and we will stop this. |
