Comments	While I totally accept that this type of waste facility is the future and probably technically better for the environment I do not believe this is the place for it. Yapton and Ford are villages, and the surrounding countryside is where we walk and take children for bike rides. Because Yapton has grown over recent years this site is not isolated enough. Infact isn't a school going to be built near it? As it is currently run , it is a blot on the south of the downs landscape with open rubbish areas bombarded by sea gulls. This should not be passed at this time.
