Comment for planning application wSCC/036/20

Comments	I would like to object to this planning application. We are a village setting and have had numerous developments allowed in recent years, both housing and industrial But this is, by far, the most intrusive. The scale is too big for our location, the roads unsuitable for the vast numbers of traffic serving the site and then there are the toxins which could be released. TJ waste had a fire over the road in the last few days, a development we also objected to and which was forced on our community, what would happen if this new incineration plant had a fire or similar accident. The recent lockdown has highlighted the need for clean air in our towns and villages, we do not need or want this potentially dangerous monstrosity to be built. I also echo the sentiments of the objection submitted by AJ Lovell, who put our case much better than I am able.
