Comment for planning application WSCC/036/20	
Application number	WSCC/036/20
Name	Robert Smith
Address	ARUNFORD CLOSE, 1, ARUNFORD CLOSE, ARUNDEL, BN18 0TR
Type of Comment	Objection
Comments	I wish to lodge my objections to the proposed development. My main objection is the increased traffic that will be generated along the roads leading to the facility. As residents of Arunford Close ( an extension of Nelson Row ) we already suffer from a marked increase in traffic flow as the entrance and egress from the site has changed to bring all traffic out onto the main road ( next to the Plane) this then in turn comes past the residences that front the main road. If the access was from the other side of the air field then it would impact on us less but as there are proposals to build on that side of the air field with houses then that would also have its own impact results. Whist on the subject of that proposed residential development , is it right to site this ' Ford energy waste site ' right next/within it. I know that this submission will fall on deaf ears as applications like this are already decided before ,we, the local residents get to know about them, but to comply with procedure and for the authorities to say , well we did give you the opportunity to object , and thus salve your consciences I submit this.
