Comments	I work in Climping and have done for two and a half years at the Oystercatcher pub. I feel this would affect my job because of visitors staying away. Visitors put of by the smells, fumes and vews. Climping is a beautiful village and clean and healthy to work and relax in with many walkers, cyclists and horse riders using the area to explore or enjoy the pub garden. This building is not appropriate in this area or this close to an area that has been prone to flooding
