Comm	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Julianne Brookes
Address	LEVERTON AVENUE, 1, LEVERTON AVENUE, BOGNOR REGIS, PO22 7RA
Type of Comment	Objection
Comments	This building and tower would not only be a monstrosity in the area, it is also a health hazard. The fumes/smoke/chemicals will be blowing towards residential areas whichever way the wind blows. We have extremely busy roads around this area (A27 and A259) and which create air pollution anyway and this facility will add to this, causing who knows what, illnesses. Also, as the roads are already at capacity, the extra traffic involved in the proposed site will cause a lot of problems. The infrastructure is not fit for it, the proximity to residential areas is not suitable for it and the South Downs do not deserve it. Please consider us residents and do not let this site go ahead. Thank you.
