Comments	I really oppose this proposition - not only are you spoiling a place of natural beauty, it is far to near housing estates!!! This also will have an impact on the traffic on an already far too busy, single laned road with huge thundering HGV's!!! Why would you want to build a gigantic chimney, that is taller than Chichester Cathedrals tower and what about the output of the thing impacting on the health of all people living in and around that area!!! Are you really serious - have you been out to this area and had a look round to see the beauty of this countryside - national park and with outstanding natural beauty!!!!!
