| Comments | <input type="text" value="Our village does not need this monstrosity or the noise & pollution from 200 plus lorries per day. Yes, apparently they have put a low estimate in on hgv movement! Also, if the 1500 houses are built on Ford airfield, who would want to have that humongous monstrosity on their doorstep? I will put our health at risk & also de-value our property. We as peaceful villages do not want it."/> |
