Comments	My husband and I are not happy about the building of the waste plant near us. We believe it will cause air pollution, an increased amount of traffic and noise in what is a very quiet and residential area. We feel that this will drastically reduce the house prices here as a result. Additionally, with the building being so tall, it will be an ugly eye-sore in what is prominently fields and small houses. The fields provide a charm that will be removed if this monstrous building is built. Therefore we have very strong objections to this building work.
