Comn	nent for planning application WSCC/036/20
Application number	WSCC/036/20
Name	Mr E J Silvester
Address	THOMPSON ROAD, 8, THOMPSON ROAD, BOGNOR REGIS, PO22 7UG
Type of Comment	Objection
Comments	The proposal flies in the face of UK government commitments to tackle climate change and protecting the environment. The structure will be a blot on the local landscape and increase local pollution with increased heavy goods traffic and emissions. We should be encouraging recycling schemes rather than building incinerators to add to local pollution. The plan will have a detrimental impact of the local environment, house values and future home building opportunities in the area.
