I wish to object to this application. It appears the applicant wants to bring in waste from outside of West Sussex to burn. The local road network is not suitable for this amount of lorries. The whole scheme is madness - it will actually create more pollution from the furnace and the lorry emissions than the energy it will produce. This is not a good thing for the environment, the local area or in fact any reason I can think of and it will be a massive blot on the landscape.
