Comm	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Trevor David Ford
Address	NELSON ROW, 44, NELSON ROW, ARUNDEL, BN18 0DD
Type of Comment	Objection
Comments	I object to this planning application because it harms the aims of the UK government to reduce climate change and their goal to zero emissions. It is oversized and not suitable for the area. It will produce dust and fumes. The design is not in keeping with the local landscape. It will create noise and a disturbance to local properties. The building is gigantic and will blight the landscape and the historic Town of Arundel and the views from the Southdown National Park. The current consent includes a condition that the plan must reach the R1 standard in the planning stage I have seen no evidence of this so permission cannot be granted until it meets that condition. This a chance for Councillors to review the new Environmental Bill and refuse this greedy for profit lead polluting colossal disfigurement in the Arun Valley.
