Type of Comment	Objection
Comments	I am really concerned about what this will mean for nearby air quality, not only from the emissions from the incinerator, but also the high number of vehicles that will be transporting rubbish. I am deeply concerned about the emissions, particularly the small toxic particles that aren't filtered outthe health and environmental impact is unknown. The chimney stack, judging by the sheer height of it, will be visible from the historical Arundel Castle which will be an awful eyesore. It is planned to be less than 1km away from the nearest primary school and less than 500m away - directly downwind from the prison. I strongly object to this development. I believe it poses a health hazard to local and surrounding communities.
