Comment for planning application WSCC/036/20	
Application number	WSCC/036/20
Name	JOHN BARLEY
Address	32 JOHNSON WAY, FORD BN18 0TS
Type of Comment	Objection
Comments	This project is far too big and will blight the whole of the area, obliterating other valued buildings in the area. The roads won't cope with the increased traffic! Safety will be compromised. This eyesore will also affect people's health, including their mental health. The government is striving to reduce all greenhouse gasses to zero by 2050, this site will exacerbate the problem and add to climate change. We have enough air pollution without adding to it. The impact of wildlife and their habits will be catastrophic. This site is not needed, not wanted and not necessary. I object in the strongest possible terms.
