Comments	The structure will tower over all residential houses, causing a huge eye sore. It will stick out like a sore thumb. The road isn't a big enough road to cope with increase in large vehicles using it. It's extremely hard to get out onto the road from HMG lane as it is without this eye sore increasing traffic. The amount of planning in Climping, yapton etc has been outrageously high and there is plenty of other places this structure would fit in better with better supporting roads.
