Comments	There's far too many building projects going on in the area , without enough thought on the roads. I also get the opinion that our area is Arundel's dumping ground. You have forced through a road that will destroy this areas natural habitats to solve Arundel's problem and now you want to allow an unsightly and smelly incinerator to get rid of all of Arundel's rubbish. So many sites being approved without anyone being properly notified. Seems like something dodgy going on !
