Collin	ient for planning application wscc/030/20
Application number	WSCC/036/20
Name	Matthew Ransley
Address	FONTWELL CLOSE, 43, FONTWELL CLOSE, LITTLEHAMPTON, BN16 2LL
Type of Comment	Objection
Comments	This is a wholly unsuitable location for the following reasons: Traffic - a difficult area as it is for traffic, let alone the hundreds of additional heavy goods vehicles on a road that is wholly unsuitable; Residential area - this is too close to an existing residential area as well as proposed further residential applications; Environmental impact - linked to above, there is untold damage that could be exposed on the area - gas, smells etc. Visual impact - not only is the site in close proximity to the outstanding natural beauty of the south downs, but also the vastness of the structure dwarfs that of the other great buildings of the county. Not what the county needs as the most prominent image on the skyline. One reason could be ignored in the way of compromise - but there are too many arguments to allow this to be granted.
