Comments	1. I believe that any building on this scale is totally unsuitable for the area. The fact that it is being proposed next to an existing housing estate and an approved new one seems to be totally inappropriate given the types of emissions identified. 2. The volume of traffic generated by this facility are vastly out of proportion to the area and will have a detrimental effect on local traffic flow , safety and pollution levels. 3. The effect on the local environment and wildlife are also a major concern.
