

Comment for planning application WSCC/036/20

Application number	WSCC/036/20

Type of Comment	Objection
Comments	I'm not on the doorstep of this proposal but like many others concerned about environmental factors and how such structures impact local wildlife and nature as well as people. It's hideous looking at aesthetics only, maybe you need to shroud such a monstrosity in very tall trees so nobody has to see something that scars the landscape so wholly.
