Comment for planning application WSCC/036/20

Application number	WSCC/036/20
Name	Stuart McAdams
Address	MAY CLOSE, 7, MAY CLOSE, LITTLEHAMPTON, BN17 5TF
Type of Comment	Objection
Comments	I object to this development for a number of reasons. Firstly the already very busy roads will become even more congested & this will increase both air & noise pollution with large good vehicles depositing waste day & night. Planners are working hard to increase the residential housing in this area - building such a large structure will disrupt the new community of housing planned & lower house prices. There are already 'recycling' sites in a close proximity which emit nasty odours into our local community. Additional smell from unprocessed waste & emissions from a chimney will only make this worse & will affect the surrounding residents. I would encourage persons from the council to visit the waste processing until similar to this in Shoreham or Portsmouth. I have personally visited the site in Portsmouth situated in suitable industrial area away from residential areas. There is a strong smell of waste omitted from this.
