Comments	1. Why spoil the beautiful countryside with a giant waste tower? 2. Why allow corporations to build more waste sites that expel pollution for miles to come. 3. What about our county's environmental contribution to the worlds climate issues? 4. Why build such a bloody monstrosity in one of the most historic parts of the south. Stop endorsing pollution. Stop endorsing the destruction of our countryside and scenic views. They don't need more money. They don't need this warehouse to survive. People need clean air and space to survive. Put your people first, instead of a pollution tower that will bring down tourism, bring down the beautiful nature we surround ourself with. STOP ENDORSING POLLUTION!
