Comments	My strong objections to this proposal centre around the issues of:- Unsuitable geographical location especially due to such close proximity to proposed housing development, Visual impact of disproportionately huge buildings. Environmental impact on this beautiful and sensitive natural region. Gross unsuitability of the proposed incineration method. Potential health risks to residents locally and not so local. Generally, disregarding any aim to consider climate change or 'greener' environmental issues. Wrong location, wrong method and wrong time. It is surely a non starter.
