Comments	Having just moved from an area where such a facility was built only a few years ago 2 miles from my home I must say I'd be extremely disappointed if this proposal is given consent. Despite the promises these sites emit a terrible sickly stench that one cannot get away from. I understand they need to be built somewhere but that somewhere needs to be well away from areas where people live. I have never objected to any development before in my 52 years but I object to this one on the strongest possible terms!
