Application number	wscc/036/20
Name	fran parkhurst
Address	CROPTHORNE DRIVE, 26, CROPTHORNE DRIVE, LITTLEHAMPTON, BN17 5GG
Type of Comment	Objection
Comments	This proposal will see 275,000 tonnes of mixed waste burned at the site each year causing serious health issues. This will be brought to the site by hundreds and hundreds of lorries each days putting even more pressure on Church Rd and the A259. Huge traffic impact with large lorries each day, some coming from well outside West Sussex. Road access to Church Lane and Horsemere Green Lane is wholly unsuitable to this type of traffic, as they are both narrow unclassified roads at the heart of Clymping village. The proximity to existing and ever increasing proposed residential housing. The visual im[act it will be detrimental to the wider area over a considerable distance from a proposed 25m high chimney in 2015 to an 85m chimney in 2020?????? Terrible emissions from unknown gas, smells and/or other noxious substances on peoples health and surrounding areas. Serious safety issues around the event of a plant breakdown, fire or other catastrophic events. The residents of Clymping are never heard when we put in our objections as 99% of applicantions are passed. This is TOTALLY UNACCEPTABLE and an UNSUITABLE site for a plant of this size, scale and type of operation.
