Comment for planning application WSCC/036/20

Application number	WSCC/036/20
Name	Richard Hayes
Address	ST. MARYS MEADOW, 30, ST. MARYS MEADOW, ARUNDEL, BN18 0EE
Type of Comment	Comment
Comments	As rector of the Benefice of Clymping and yapton with Ford I am strongly against this proposal. The size of the building will make it a landmark across the area and from the national park. Councillors will have their names attached to this building for a generation, as will the parties they represent. Unlike many bad planning decisions no one will be able to ignore or forget this building. It will be a flagship for inappropriate planning across the county and beyond. Beyond the eyesore nature of the plan the communities will face a massive increase in traffic which will be on roads unsuitable for such numbers. My concerns as parish priest are for the safety of locals now but also for those who will be moving into our communities in the coming years as we play our part in providing homes for our part of the country. We need aesthetically attractive new communities that encourage people to live and play in the area. Such places feed the emotional, mental and spiritual health of residents. This plan will damage community and individual lives.
