Comments	So sad to find the council is even considering, let alone allow Viridor to build, an incinerator so close to so many and ever increasing in number residential properties. I am concerned as not only is it medically wrong but it will ruin the beautiful area . The eye-line of rural will be blighted by this monstrosity. The coming and going, of not only the builders traffic, but the eventual lorry traffic that would be generated is far to much for the existing roads, apart from the noise. Why yet again are the powers that be determined to ruin this lovely peaceful area. Planning permission SHOULD YET AGAIN NEVER GET PAST IT'S INITIAL STAGE. IT MUST BE STOPPED. Please please do not ruin Climping and surrounding areas that would be so dramatically affected.
